

Immunizations Save Lives

When we were kids, our mothers usually made sure we had all the shots we needed to stay healthy. But did you know that grownups also need to keep their immunizations up-to-date? 20 words all having to do with vaccines are hidden in this puzzle. Can you find them all?

Remember—you might only need a few immunizations, or more, depending on your health condition, lifestyle, occupation, travel plans and age. Talk to your healthcare provider about which vaccines you need.
